

"3 Idiots" is a comedy-drama film released in 2009, co-written by Abhijat Joshi and directed by Rajkumar Hirani. The film features Aamir Khan, R. Madhavan, Sharman Joshi, Kareena Kapoor, Boman Irani, and Omi Vaidya.

Plot: When Ranchoddas Shyamaldas Chanchad, also known as Rancho (Aamir Khan), enters the city's number 1 engineering college, he appears to offer his fellow students the opportunity to breathe freely in the pursuit of the race for the top position and a splendid career. The college's strict and stern principal, Viru Sahastrabudhhe (Boman Irani), believes that a student must be immersed in the pursuit of being number 1 in every aspect. He does not appreciate any hindrance in this career race.

In the midst of this competitive environment, the exhausted and pained students find solace in Rancho, who wants to be the cure for their pain. Rancho believes that most students in the college are compelled to sacrifice their dreams and aspirations to fulfill the wishes and unfulfilled dreams of their parents. Upon entering the college, Rancho becomes the roommate of Farhan Qureshi (R. Madhavan) and Raju Rastogi (Sharman Joshi), who share similar predicaments. Raju has joined the college to fulfill his father's dream, despite facing financial and family difficulties. Farhan, on the other hand, is pursuing engineering due to his father's expectations, even though his true passion lies in becoming a wildlife photographer.

The story revolves around Rancho's efforts to encourage his friends to pursue their true passions and break free from societal and parental expectations. The narrative also explores the challenges and pressures faced by students in the pursuit of academic success.

The film, through humor and emotion, conveys a powerful message about the importance of following one's passion and individual dreams, rather than conforming to societal norms and expectations.
